

Something New From Audio Images

The p45 Communicator

At Audio Images we concentrate on one absolute goal; providing outstanding, unparalleled value to the apartment industry.

Designed and engineered with the latest digital technology, the Audio Images p45 Communicator phone system delivers a new powerful level of sophistication and efficiency to allow you to communicate more effectively than ever before.

And, by using these advancements in digital technology, we can provide you the best communications solutions for your office at the most economical cost.

Technology With Style

Express your own style with the innovative and attractive Designer Series Telephones.

Or, for more traditional environments, the popular Charcoal Telephone is a distinguished addition to any office.

Every telephone is an exceptional quality speakerphone and provides an easy to read 3-line interactive LCD Display.

Use the eye-catching blue LCD interactive buttons to review caller ID information or to queue on a busy line or telephone.

We offer 4 different colors!

And, to make this telephone the easiest to use in the industry, the helpful navigation keys let you scroll through to easily access the abundant feature offerings.

And, the Small Business Voice Mail System with its Email Delivery feature can send a copy of your voice mail messages directly to your email. Then listen to voice mail messages and read email all from one unified spot, your email inbox!
